CAREER OBJECTIVE

Senior Computer Science major, currently studying in Troy University with a passion for coding. Skilled in web and android development. Looking for opportunities to learn and master new skills through creative problem solving and an attention to detail.

EDUCATION

Troy University, Troy, AL
Bachelor of Science in Computer Science with Economics Minor
August 2016 – May 2020
GPA: 3.82
Enrolled in the Honors Program

EXPERIENCE

City of Dothan, Dothan, AL
IT Intern (Applications), May 2019-August 2019
- Updated and maintained the city website (Dothan.org).
- Ran server updates and helped roll it out to users of various departments.
- Solved user's hardware/software issues in different departments.

Troy Palladium, Troy, AL
Photography Editor, August 2019-Present

- Ran a team of 9 photographers to take photos of student events in the university for the yearbook.
- Assisted new photographers and taught them the basics of using a camera.
- Photographed various sports events for the Troy University Trojans and events on the Troy Campus.

PROJECTS

- **EatRight (**Java, Kotlin, XML, SQLite, PostgreSQL**)**:
  A fitness app on android that tracks a user's calorie intake, recommends nutrition intake, tracks water intake, create custom food items and save their calories, view their eating history, and see monthly reports.

- **FlyAway (**HTML, CSS, Bootstrap 4, PHP and MySQL.**)**:
  A website that simulates a flight booking system by allowing users to sign up/log in, check available flights, create a profile and check their dashboard for booked flights.

- **TalentFinde**r (HTML5, CSS, Bootstrap 4, PHP, and MySQL):
  A website that allows users to post requirements for their projects and find other users who have the necessary skills to help with that project and show their skills on their profile.

Student Involvement and Volunteer Activities

- Secretary of the Troy University Computer Science Club.
- Member of the TroyHack organizing committee.
- Member of the University Activities Council.
